

## How are Finepanels installed?

Start with a whole panel and apply a zig-zag bead of panel glue to the rear face - press firmly into position

Glue and link panels progressively using pins or screws to hold them in place whilst the glue dries

Measure and cut a finishing panel to size with a circular, jig or hand saw

Complete the section by bonding on an end trim

Panel the remaining sections in exactly the same way

Lastly attach a dado rail. Finepanels are primed and ready-to-paint in your own colours.....Easy!

## How many Finepanels will I need?

Letter each section of wall to be panelled - A,B,C etc. Measure each one and fill in Table A, using Table B to determine how many panels each needs. Total up the panels to find how many the room requires. Divide by 6 and round up to find the number of packs required

Table A

Wall	Dim (mm)	Panel Qty
A		
B		
C		
D		
E		
F		
G		
H		
Room Total =		
Room Total ÷ 6 =		
Packs Required =		

Table B

Wall Dim (mm)	Panel Qty
0 - 450	1
451 - 835	2
836 - 1220	3
1221 - 1605	4
1606 - 1990	5
1991 - 2375	6
2376 - 2760	7
2761 - 3145	8
3146 - 3530	9
3531 - 3915	10
3916 - 4300	11
4301 - 4685	12
4686 - 5070	13
5071 - 5455	14
5456 - 5840	15
5841 - 6225	16
6226 - 6610	17
6611 - 6995	18
6996 - 7380	19
7381 - 7765	20

6 Panels + 2 End Trims per pack  
Each pack covers up to  
2440mm (8') x 885mm (2.1 SqM)

*Remove packaging and acclimatise contents for 48 hrs prior to installation*

## Classic Wall Panelling

**Simple Stylish Affordable**

## Quick and easy-to-install

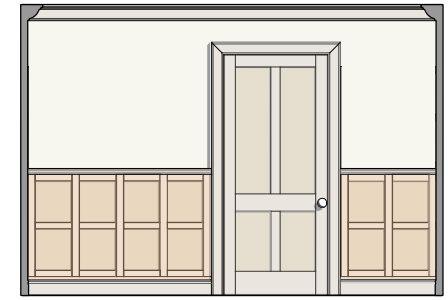

- Covers all kinds of wall
- Fixes and links invisibly
- Fits above existing skirtings
- Easy-to-cut
- Primed and ready-to-paint
- Moisture resistant

*Finepanels are the cost-effective way to add style and character to a modern house or return period charm to an older property*

### 'The-Look-for-Less'

Finepanel modular wall panels can be fitted to all kinds of wall - making them ideal for both new-build and refurbishment projects. Finepanels fix and link together invisibly ensuring a quality, professional finish

**Less time Less effort Less money**

Dado Height Installation

Light and easy-to-handle Finepanels are thin enough to fit above existing skirtings. Primed white and ready to paint, simply cap panels with a dado rail prior to decorating

Fit a second row of Finepanels above the dado rail and cap with picture rail or plate shelf for a really impressive fully-panelled appearance

## Quick and easy-to-install wall panelling

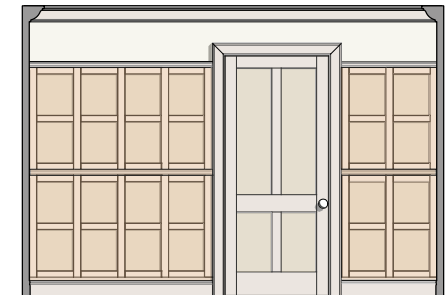

bland into *Grand*<sup>™</sup>

When it comes to making a sophisticated impression Finepanel high-relief panelling leaves wallpaper looking flat! They truly are the quickest, easiest and most economical way to create a '*Superior Interior*'

**Simple Stylish Affordable**

**Traditional or Contemporary, Finepanels will totally transform an interior - Decorate in your favourite colours to create your own personal style**

Double Height Installation

Manufactured from moisture resistant MDF, Finepanels can be used in any room unless exposed to constant damp, running water or a naked flame. Finepanels are easy to cut with regular wood working tools so are swift and simple to modify

Clear step-by-step installation diagrams are included inside every pack showing how to attach Finepanels, how to panel round corners, how to start with a cut panel and how to deal with obstacles such as radiators and electrical sockets
